Payment wizardry – The quick, easy, and secure way to get paid

Find out if Blink's payment solution works for you

[Tell us what you think](#)

Blink is best known for its acclaimed payments portal, enabling clients to centralise all their payment processing needs within one simple portal.

Offering card payments, open banking and direct debits, they provide tailored payment solutions for all industries. Whether it's a virtual terminal to take over-the-phone transactions, integrated payment links to sit on invoices, or effortless bank reconciliation to save time. Blink provides you with the payment solutions you need, all in one place.

Open banking

Process transactions entirely through online banking, avoiding conventional payment processors.

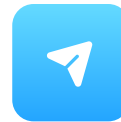

Reporting

View your transaction history, create and schedule reports and reconcile your company's bank accounts.

Blink pages

Open payment pages to sit on invoices and websites.

PayLinks

Send quick, customisable and fully trackable payment links via email and SMS.

Benefits of Blink

- Simple and easy to navigate.
- All your payment processing and reporting in one place.
